- A Teh Group Event -

CYBERATTACK **BANGKOK** SERIES

23 NOV 2021

12PM - 2:30PM | VIRTUAL

www.cyberattack-event.com

FOCUSED ON BUILDING

A yearly event focused on building Cyber Resiliency, Threat Intelligence, Data Security, and many more Cybersecurity topics to ensure operations and businesses' continuity of critical infrastructure.

In the digital era, more information is being generated, shared and stored in digital formats than ever before. As quickly as data is being generated, new and sophisticated forms of cyber threats are flourishing. Similarly, additional regulations and risk-mitigating requirements are being introduced all over the world with the intent of protecting data. Thailand is no exception, with the country now armed with its Personal Data Protection Act (PDPA) and the Cybersecurity Act, all hoping to complement its smart industries.

This is an in-depth session aimed at imparting the current advancements in Cybersecurity which will benefit business operations in both the public and private sectors in the long run.

CIOs/CISOs will share their best practices on Cybersecurity, at the same time, leading technology providers will get to showcase their latest cybersecurity solutions that can be adopted by Thai organizations.

THANKING OUR SPONSORS

Blanco Technology Group (AIM: BLTG) provides organizations with secure, compliant, and automated solutions that accelerate the transition to the circular economy. Each year, tens of millions of Blanco erasures allow top-tier organizations to protect end-of-life data against unauthorized access, safely redeploy data storage assets, and firmly comply with increased data protection and privacy requirements. Our precise device diagnostics help move used IT assets confidently into the circular economy, enabling enterprises, IT asset disposition (ITAD) vendors and recyclers, and mobile industry stakeholders to operate more sustainably.

Anomali delivers intelligence-driven cybersecurity solutions, including ThreatStream®, Match™, and Lens™. Companies use Anomali to enhance threat visibility, automate threat processing and detection, and accelerate threat investigation, response, and remediation. The industry recognizes Anomali as a market-leading threat intelligence provider that empowers organizations by dramatically improving their security posture.

LogRhythm's story starts in 2002 with two friends and a common dream: Phil Vilella (an experimental physicist) and Chris Petersen (an audit and compliance guru) wanted to develop solutions to growing and constant cybersecurity threats. Together, they embarked on their journey as entrepreneurs, laying out their vision for automated collection, processing, and analysis of security event data. Over the course of the next few years, they turned their dream into a reality as they co-founded their company, and LogRhythm eventually became a leading security and event management (SIEM) solution.

AGENDA

11:40 AM

WELCOME REMARKS

11:45 AM

CYBERSECURITY LANDSCAPE IN THAILAND

Dr. Prachya Chalermwat
Secretary General
National Cyber Security Agency, Thailand

12:00 PM

LUNCH & LEARN: DATA COMPLIANCE, DATA SECURITY ON CRITICAL INFORMATION

PRESENTERS

12:00 PM - 12:45 PM
Data Erasure
Frederik Forslund
VP of Enterprise &
Cloud Erasure Solutions
Blanco

12:45 PM - 1:30 PM
Threat Intelligence
Joel Tian
ASEAN Region Manager
Anomali

PANEL

Pepijn Kok
Director of Cyber
Security Advisory
KPMG Thailand

Dr. Supakorn Kungpisdan
Head of Technology Risk
Management
Siam Commercial Bank

1:30 PM

BREAK (INTERMISSION)

1:40 PM

**LOGRHYTHM WORKSHOP - SOC
USE CASES FOR RANSOMWARE
AND COMMON THREATS IN
THAILAND**

**CYBER COMPLIANCE WORKSHOP
: DATA COMPLIANCE CRITICAL
INFORMATION INFRASTRUCTURE**

K. Suta Laokomen
Assistant Technical Director
Exclusive Networks
(Representing **LogRhythm**)

To be confirmed

2:30 PM
